DETAILED ACTION

Claims 31, 32, 43 and 44 are pending in the application.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 31 and 32, drawn to a method of inhibiting the growth of a solid tumor by providing exogenous PEDF to endothelial cells associated with said tumor, classified in class 435, subclass 455.
- II. Claims 43 and 44, drawn to a method of inhibiting neovascularization in an eye by providing exogenous PEDF to endothelial cells associated with said tissue condition, classified in class 514, subclass 44.

The inventions are distinct, each from the other for following reasons.

The inventions of groups I and II are patentably distinct because the inventions are drawn to distinct methods that require different starting material and modes of operation. The method of Group I requires endothelial cells associated with tumor, whereas the method of group II requires endothelial cells from the eye. Each method comprises steps to achieve distinct purpose. Therefore, the invention of Groups I and II are patentably distinct.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper. A search of the subject matter of one invention would not be co-extensive with a search of the other invention, and therefore the search would be burdensome. Each invention is capable of supporting a separate patent.

Art Unit: 1636

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
